

THIRD LANGUAGE ENGLISH ACTIVITIES

CLASS: 7TH

POEM (A NIGHT IN JUNE)

ACTIVITY-1

Read the summary of the poem.

Summary: In this poem, 'A Night in June,' the poet William Wordsworth describes about the beautiful night of summer in London. In June, the sun took long time to set. That time two or three stars are coming out, little birds are chirping among the bushes and trees. One or two song birds and a cuckoo are singing. A far-off blowing wind and flowing water make sound. All the spaces of the sky fill up by these beautiful things.

ACTIVITY-2

Do you like to see sky in night?

How is the sky in June?

Which nights do you like nights in June or summer nights?

Have you ever heard the name of the bird Cuckoo?

Name the birds that appear in the poem?

Can you imagine what the poet trying to say?

Discuss with your friends

How the poet describe the
beauty of the nature in the
poem A night in June.
